Story time! There was a boy named Haroun. Haroun was 10 years old when he drastically broke his leg. It was a very bad fracture! A large portion of his tibia was removed, but he still had an infection.

Every morning little Haroun cheerfully waited for Dr. Bland to come "hurt" him. Dr. Bland was an American missionary surgeon and only wanted the little boy to be healed, but, unfortunately, Haroun felt a lot of pain during the process.

Each morning, the doctor and his team removed the dressings, took care of the infection, and repacked the wound with gauze.

Haroun was a very brave kid and, as soon as the procedure was over, his bright smile returned. Every time Dr. Bland and his team visited Haroun, at the Bere Adventist Hospital in Chad, they would speak French with him and teach him tricky handshakes.

Since Haroun was alone at the hospital, this was the highlight of his day.

You see, in medicine, sometimes, doctors have to cause pain in order to heal. So you always have to trust that everything they do is for your own good. Do you, likewise, trust Jesus? Do you believe that He may take your offerings and bless those who are hurting around the world?

When distributed as suggested by the Combined Offering Plan, 50-60% of your Promise will support your local church, 20-25% will help to fund your field's missionary projects, and the other 20-25% will go towards worldwide missionary projects. One example is the World Mission fund, which supports more than 400 missionary families.

You may also give directly to the World Mission in addition to your "Promise" (regular and systematic offerings) by writing "World Mission Offering" on your tithe envelope, or by visiting Giving.AdventistMission.org, then clicking on "My donation is for" and selecting "World Mission Offerings." Thank you in advance for your generous giving!
