In 1898, Austin Wilson, a 26 year old blind man, had the amazing idea to approach the General Conference with his idea to produce the Christian Record Braille magazine.

Thankfully, many people bought his idea, volunteered, donated, and worked to make it happen.

More than a century later, many are still blessed by this ministry. One day, a woman named Marilyn called the Record Ministry, with a tearful voice, to say "thank you". She had been a member of the ministry for more than 30 years. Marilyn was still suffering the loss of her husband and she explained how she was impacted by a booklet recently published in Braille.

It is expected that by 2050 there will be around 115 million individuals with blindness around the world.
