

## The Price of Life

January 29, 2022

### AUDIO

sc. **01**

But do you believe that God is still sparing lives today? Eric's summer job was to clean the large window panes of a three-story building. He had stand on a 12-centimeter (almost 5-inch) ledge outside each window to clean the surface of the fixed middle panel. There was no security gear; he could only hold tightly onto the frame with one hand while working with the other. Scary right?

sc. **02**

One day, while he was working outside of a room on the third floor, a violent wind closed the window on his hand that was holding the frame. As a reflex reaction, he opened his grip. He was standing still for a few seconds, hands free, 20 meters (65 feet) above the ground with no security. Miraculously, Eric managed to take hold of the frame with his injured hand. Eric knew he wasn't able to survive this on his own. God had preserved his life, and Eric chose to consecrate himself to fully serving His Protector, working as a Seventh-day Adventist pastor.

After going through a pandemic that has already killed millions, we, as survivors, have many reasons to be thankful. Has your life not been preserved many other times? As you worship God with your tithe and Promise (**regular and systematic offerings**), thank your Divine Protector for loving you and for preserving your life.

May we always put our desires last and God first!
